

Eco-Auction 2002

Have fun being green.

Fabulous auction items include this Evergreen Prospector canoe, which retails for \$1,090 from **Mountain Equipment Co-op (MEC)** and a gift certificate for \$100 from MEC. The dynamic **Dave Smith** catering genius and auctioneer extraordinaire will be hosting the event.

Clifford Lincoln, Member of Parliament for Lac-Saint-Jean and a board member of the NET has eloquently stated the NET's objectives for the EcoAuctionLive. "When I was Minister of the Environment of Quebec, I found out that small amounts of seed-funding often turns ideas and dreams into sustainable projects. So in distributing discretionary funds, I made sure to remember those small but committed groups needing some very modest funding to bring their worthy ideas into pro-active actions for the common good. This is what the NET wants to do, to turn commitment and dreams into reality, and this is why I support the NET actively."

Date: **Tuesday, May 28, 2002**

The National Environmental Treasure

We are a unique Canadian public charitable foundation dedicated to innovative ways of bringing new resources to environment organizations. Recognizing a critical need to facilitate the building of organizational capacity the NET's goal is to support small and medium organizations, working in local communities and regions. Our goal is to build a 30 million dollar endowment for the environment - the equivalent of one "loonie" for every Canadian.
